All Saints Staff is proud to share the ITBS tests results for 2009!

- 3rd grade composite score – 99%
- 4th grade composite score – 99%
- 5th grade composite score – 96%

The National Grade Equivalence scores below show the grade equivalence our students test at in each category. The number (4.8) is the grade level followed by a decimal, then the number of months in that grade.

- 3rd graders who took the test in October have the grade equivalence in Reading Comprehension of 4.8 (4th grade - eighth month).
- This means our 3rd grade students are doing as well as a 4th grader in the 8th month of school taking the same test.

In the 4th & 5th Grade charts, one can see growth year over year by subtracting the previous year's number from the next (5th Grade Reading Comprehension 7.0-5.7 = 1.3).
